Description

Scope of Services Stanislaus County Public Works is now accepting bids for the Asphalt Rubber, Pelletized Test Sections and Fiber Reinforced Overlay Project. Estimated Construction cost for this project is less than \$ 2,263,160.00. The work to be accomplished includes but is not limited to; asphalt concrete grinding; roadway base repair; roadway skin patch repairs; installation of temporary construction signage; removal of existing traffic striping, markings and pavement markings; installation of temporary and permanent pavement delineation and pavement markings; resetting existing signage; installation of shoulder backing; removal, replacement and painting of asphalt dike; placement of microsurfacing; preserving and re-establishing survey monuments; raising vehicle detector handholes to grade; furnishing and installing asphalt test section markers, and placement of six types of hot mix asphalts. Other such items and details not

mentioned herein that are required by the Plans, Standard Specifications or Special Provisions shall be performed, placed, constructed or detailed.
