Commodity Codes

Commodity Code	Description
72140	Construction services including sewer maintenance and repair, roads and highways and excavation and backfill services, levee and dam construction and digging, ditching, road grading, rock stabilization, equipment rental or lease, and energy conservation
46160	Public safety and control equipment and supplies and accessories including traffic control (driver feedback signs and traffic signals) and water safety and rescue equipment and accessories and snow and ice melter and snow removal equipment and road salt
83100	Utilities including gas and power and water and sewer and electricity and utilities management and consulting services, and alternative forms of energy, solar panels and servicing

Description

The work generally includes, but is not limited to providing rehabilitation of existing sanitary sewer pipelines by installing a continuous Cured-in-Place Thermosetting Resin Sewer Pipe (CIPP). All existing service laterals shall be remotely reinstated. The work also consists of furnishing and installing the equipment, facilities, services, and appurtenances as indicated in the plans and specifications.

Engineers estimate is $775,000
